

Cowl front ring laminated from 2 layers of 1/8 sheet. Wrap with 1/32 sheet & add 3/32 sheet rocker box "bumps".

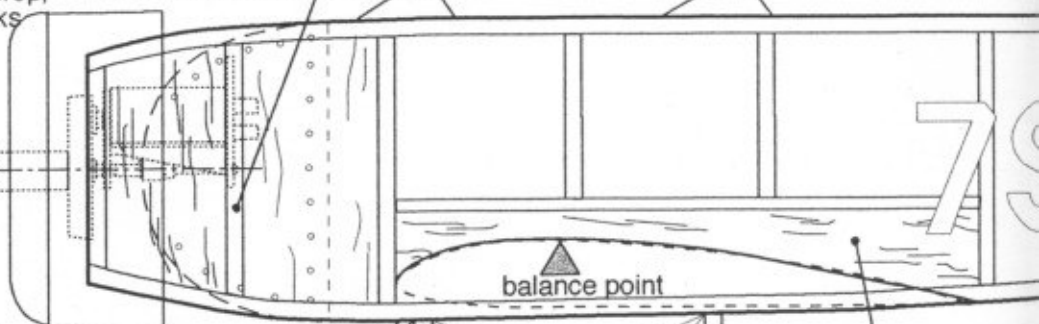

For electric power, the KP-00 (large gear version) turning a Williams Brothers 5" prop, and using three 50 mah NiCd cells works well.

Mount motor to 3/4" wide 1/32 ply strip glued across these uprights

3° down and right thrust
